

TUCSON BOTANICAL GARDENS

THANK YOU!

We are pleased to report the Exhibit of the Matthew B. Johnson Florilegium at Tucson Botanical Gardens this past spring was a great success. They reported 53,400 visitors to the garden during the period of the exhibit. We are so lucky to have this nationally recognized public garden in our community - it is a cool, shady place rich with botanical and educational inspiration and learning! Consider visiting them soon.

We hope many of you were able to visit and see it in person. If you missed it, enjoy the photos posted below, visit the associated [events page](#), or visit the [florilegium virtual gallery](#).
